

LIBERTY LIGHT COLUMN

10-50W | Light Column

Liberty Light Column provide equal light distribution in all directions. The very stylish Liberty offers long life and energy savings.

The Liberty offers a variety of wattages for all applications. The wattages range from 10 watts for accent lighting to 50 watts for full lighting coverage. Using only high quality drivers and LEDs, the Liberty's LEDs offer an average of 200K+ long lasting hours.

Columns available in 5", 6" or 8" Square. Standard height is 42" and custom heights are optional. The Liberty is constructed out of .125" extruded aluminum for durability.

The Liberty is proudly made and assembled in the USA.
