

# REVOLUTION

## 10-28W | Light Bollard

The Revolution light bollard is a sleek modern custom design fixture. With its curvature appearance, the Revolution makes a bold architectural statement.

The Revolution has full cut distribution and offers a variety of wattages for all applications, ranging from 10 watts for accent lighting to 28 watts for full lighting coverage. The REV uses only high quality drivers and LEDs, the Liberty's LEDs offer an average of 200K+ long lasting hours.

The Revolution is 4" in diameter at a standard height of 42". Custom heights available. The REV is constructed out of .125" extruded aluminum for durability.

The Revolution is proudly designed, made and assembled in the USA.

MODEL	WATT	SIZE	KLV	DISTRI.	VOLT	FINISH
REV	10	4 - 4" Round	5K	T4	UNV	BZ - Bronze
